

Dear friends in the Viennese Peace Movement and the Hiroshima Group Vienna

With these few lines the PeaceWatch in Copenhagen wants to express its support to your steady work against nuclear armament and for peace. We are ashamed to admit that Denmark was not among the member-states of the UN who agreed upon a treaty on the ban of nuclear weapons this summer. The Danish government follows USA through thick and thin, and almost all the political parties agree; thus we cannot even hope that an election would change that.

Accordingly, independent critical voices from private citizens are more called for than ever. Since October 19th 2001, the Peace Watch has demonstrated every day for a new and peaceful Danish foreign policy, and for world peace.

August 6th will be our day no. 5771

In this small local struggle it is good to know that friends and activists elsewhere in the world are struggling for the same goals. We are full of gratitude that you are there every year to remind us all of the crimes 6th and 9th August 1945.

The world must not be allowed to forget.

For the Danish PeaceWatch
